

# THE FAIR TAX ACT OF 2015

*"the 100% progressive, 100% visible, 100% simple National Retail Sales Tax Plan for America"*

## A PETITION

In support of the plan to replace the current U.S.  
income tax code with the Fair Tax Act, H.R. 25 / S. 155

E-mail Address: \_\_\_\_\_ Yes, e-mail me updates:

**WHEREAS**, the current U.S. tax code is widely regarded as unfair, complex, wasteful, confusing and costly;

**WHEREAS**, the Internal Revenue Service is acknowledged to be deeply flawed, mismanaged and has victimized many innocent taxpayers;

**WHEREAS**, the current regressive Social Security/Medicare payroll deduction system (FICA) places a heavy burden on low/middle income and self-employed people;

**WHEREAS**, the American people deserve a tax system that:

- Enables workers to keep their entire paycheck and retirees to keep their entire pension and social security benefits – no more withholding, payroll, or income taxes;
- Closes all loopholes and treats everyone uniformly and fairly;
- Funds Social Security (FICA) benefits at today's levels through the sales tax revenues;
- Frees individuals from ever filing a tax return again, restoring personal financial privacy;
- Abolishes the IRS and ends all personal audits of individual taxpayers;
- Eliminates all hidden federal taxes making the cost of government 100% visible;
- Brings accountability to federal taxing and spending policy;
- Lets American-made products compete fairly in import and export markets;
- Allows every household to buy their basic daily necessities tax-free.

**THEREFORE**, I, the undersigned, do hereby fully support and encourage every member of our U.S. and State Legislatures, especially those directly representing me, to openly support and, if possible, co-sponsor H.R. 25 / S. 155, which would effectively abolish the IRS and repeal the current U.S. tax code; replacing it with the Fair Tax Act, a simple federal retail sales tax, administered by the individual states, and levied equally to all eligible Americans.
