"the simple, progressive and 100% visible national retail sales tax plan for America"

A PETITION

To Support The FairTax Plan to Repeal the Current U.S. Tax Code and Replace it with the FairTax, H.R.25/S.25

WHEREAS, the current U.S. tax code is widely regarded as unfair, complex, wasteful, confusing and costly;

WHEREAS, the Internal Revenue Service is acknowledged to be deeply flawed, mismanaged and has victimized many innocent taxpayers;

WHEREAS, the current regressive Social Security Medicare payroll deduction system (FICA) places a heavy burden on low/middle income and the self-employed

WHEREAS, the American people deserve a tax system that:

- *Enables workers to keep their entire paycheck and retirees to keep their entire pension and social security benefits; No more withholding, payroll, or income taxes;*
- *Closes all loopholes and treats everyone uniformly;*
- *Funds FICA Social Security benefits at today's levels through the sales tax revenues*
- *Frees individuals from ever filing a tax return again, maintaining personal privacy;*
- *Abolishes the IRS and ends all personal audits of individual taxpayers;*
- *Eliminates all hidden federal taxes making the cost of government 100% visible;*
- *Brings accountability to taxing and spending policy;*
- *Lets American-made products compete fairly in the import and export markets;*
- *Allows every household to buy their basic daily necessities tax-free.*

THEREFORE, I the undersigned do hereby fully support and encourage every member of our U.S. and State Legislatures, especially those directly representing me, to openly support, and if possible cosponsor H.R.25/S.25, which would effectively abolish the IRS and repeal the current U.S. tax code; replacing it with the FairTax, a simple federal consumption sales tax, administered by the individual States, and levied equally to all eligible Americans.
